

Under Control

A platform to promote gender equality with the power of choice by providing an alternative method to prevent privacy leaks during the purchasing process of emergency contraception

Presented by team, Awesome!

Current Problems

- Some women might feel worried about the possibility of **privacy leakage** at face to face Plan-B medicine purchasing process.
- Teenagers lack relevant knowledge about emergency contraception.
- Time is the key.
within 24 hours: 95% effective
between 48-72 hours: 61% effective

We Are Here To Bring You The Solutions

Pharmacy Locations Based on Google Map API

Provides accurate and responsive information about the current available pharmacies near the user.

Order Procedure That Prevents Privacy Leaks

With some essential contact info, the medicine will be placed in a sealed paper-bag package in the pick-up stage so that other people will have no chance accessing our privacy.

Non-Profit Platform That Provides Education

With a user-friendly interface, we are trying to keep everything easy for people to access and to understand.
